ESG Integration

We bring some of the best minds in ESG to help quantify complex ESG concepts like **biodiversity, human rights, climate change, and employee satisfaction** to allow investors to use directly in their models.

Bringing **Impact** to the Investment Process

We help investors to **understand, advance, and measure** the positive influence their investments have on the environment and society.

Bespoke Services

Every investor is different, and many require and desire **customized ESG models**.

Fruit builds ESG tools for investors from scratch to reflect their values, investment goals, and impact priorities.

Ready to elevate your investment strategy with tailored ESG solutions?

Contact Fruuit today to build a custom ESG model that aligns with your values and amplifies your impact on the environment and society.

Let's make your investments matter!
